Were Shakespeare alive today he would probably have written in this way: "There's an affinity that shapes man's ends, rough how them how he will."—Detroit Free Press.

Having looked the treasury reports over, Mr. Rockefeller has probably concluded that the government is in no immediate need of that \$50,000,000.—Washington Star.

SPORTS

JOY WILL PITCH FOR HONOLULU

SAN FRANCISCO BASEBALL MEN EXPECTING A BIG RECEPTION HERE.

The Honolulu fans are preparing a grand reception for the Coast League stars who sail for Honolulu on November 12. Already a brass band of many pieces has been engaged to meet the players at the steamer, who will be drawn through the streets of Honolulu in a gayly decorated carriage. It will be a big day for the islanders, and the visiting players will be welcomed in the manner of the conquering heroes in the days of old Rome. The players will land on a Friday, and of course there will be games played on the following Saturday and Sunday. After this there will be excursions to points of interest, receptions, and no expense will be spared to give the boys the time of their lives. Mike Fisher's men will make the Seaside Hotel—where Nick Longworth and his wife stopped—their headquarters. This is the best hotel on the islands.

"Rumor has reached the islands that Barney Joy would pitch for us," said Mike Fisher this morning, "and they feel disappointed, but they needn't be. Joy will pitch for his home team. They can have him. We will take along other pitchers, so they can have him. They can also have the pick of three catchers, Donahue, Bliss and Dashwood. Joy belongs on the islands and it is no more than fair that they should have him. I see by the Honolulu papers that they must be figuring on beating us, for their players have gone to work already and will keep in training until we arrive. We don't care how long they train. We will skin them."

In addition to the games the Honolulu fans will hold a baseball field day in which the Coast League players will be expected to enter. There will be base-running, throwing the ball, fence hitting, and such like. There are some fast runners on the islands, and if Fisher's men are not right on edge they will be skinned.

While the Coast League players are on the islands the fans will pay big prices to see them work. General admission will be \$1. Season ticket for six games will cost \$5.—S. F. Bulletin.

SPORT NOTES

The yacht Defiance recently completed by Walker was purchased yesterday by George Schaefer. He has already issued a challenge to Walter Macfarlane for a race with his yacht Maggie for a trophy, and a side bet of anything that Macfarlane wants. The Defiance is a very fast boat but needs very careful handling. Kenneth Brown, the owner of the little yacht Chip that won the race for second class yachts recently, intends to build a new yacht on different lines in the near future, and will try and win every thing that is put up for the races, that will be held in the future. Yachting has taken a great change for the better here, and it is very possible that in the near future that a number of new yachts will be seen here. The coming race for the big yachts is also causing a good deal of interest, and although the season is nearly over, there are a good many who will keep their yachts in commission during the coming winter months.

The Pedro Champions J. Carlo and A. W. Seabury have accepted the challenge of Pacheco and Perry for a series of games for the Pedro championship, and the first game will be played at the residence of A. W. Seabury on Friday night.

Frank Armstrong, the veteran golf player, met with a rather strange but painful accident last Saturday on the links of the Country Club. He was playing the ninth hole, when suddenly he felt a rather strange sensation in the back of his neck and when he came to investigate the cause of the sudden pain, found that he had been hit by a golf ball that had been driven from the ninth tee. Frank rubbed his neck and started again to play. He says that the next time that he plays golf he is going to wear a thick padding of felt around his neck, as this is the second time that he has been hit by a golf ball in the neck as well as being hit several times in other places.

The first shoot under the new rules for the new challenge cup will be held this afternoon at the traps at Kakaako by the Hawaiian Gun Club. The rules that will govern the shoot are as follows: Ten birds will be shot at from unknown angles from five traps. In the past shoots the marksman has been able to judge where the clay pigeons were coming from, but today the shooters will have to be on the alert for the traps will be sprung from different positions. Nearly every mem-

BARNEY JOY HAS A NEW STYLE

THE HONOLULU PITCHER EXPECTS TO DO THINGS WITH SIDE ARM MOVEMENT.

SAN FRANCISCO, Sept. 27.—Before the average ball player is out of the hay Barney Joy can be seen putting in hard ticks at Recreation Park. The Honolulu pitcher is touching up his side-arm movement, which he was not satisfied with. Danny Long will send him south a day ahead of the Seals next week and pitch him in the opening game of the series. For this game Joy will be in the best possible shape, and if he is beaten there will be no excuses as far as condition goes.

"If I can get that side-arm ball under better control Los Angeles won't bother me," said Barney yesterday. "The times they have hit me the hardest has been when I have used that overhand ball exclusively. What I want to do is to master that side-arm throw, and then I will have them winging. I am working on it every day, and I think I will be right when I hit Los Angeles next week."

The week's rest has done Joy a world of good and he looked as fit as a 2-year-old yesterday.

A number of the club has entered and some good scores will no doubt be made.

A good deal of bowling enthusiasm has been shown here of late, and a new tournament will be started tomorrow night. Some of the best bowlers in town have entered for the tournament, and some good scores should be made. The following matches will be rolled this week.

Thursday—McGrew and Wilder vs. Schmidt and Young, Robinson and Castle vs. McGuire and Bower.

Monday—McGrew and Wilder vs. McGuire and Bower, Robinson and Castle vs. Schmidt and Young.

Wednesday—McGrew and Wilder vs. Robinson and Castle, Schmidt and Young vs. McGuire and Bower.

It is very probable that another team will join the Atkinson baseball league if the officers of the league will consent. This new team will be a team from the U. S. S. Ironquels. The majority of the trustees are in favor of allowing the team to enter, and a meeting will no doubt be called to vote on the matter on Friday night. The Navy does all it can to encourage sports and even help the men to get their suits, balls, bats, etc. The officers are looking forward to seeing their men enter the league, and from all accounts the sailors can play very good baseball.

Before the baseball game next Saturday between the Saints and the Picked team, a series of baseball sports will be held which will be something entirely new in Honolulu. These events are very common in the East but are not held very often in the west. When the Coast team arrives the same kind of games will be held, but the prizes will be more valuable than the ones that have been offered for the sports on Saturday. The sports will start at 2 o'clock, and it will take about one hour to finish them. The picked team will have the same line up as they had when they won the game before from the Saints, and the game on Saturday promises to be a very fast one from start to finish. The following is a list of sports to be held before the game, and the prizes that have been given for the several events:

Running around bases—Order for pair of shoes on Manufacturers' Shoe Company.

Running around bases, with slide—Order for one hat on Silva's Toggery.

Bunting and running to first—Sweater from E. O. Hall's.

Throwing at a target on second base—One-half dozen pairs of socks from McInerney's.

Ball-throwing contest for distance—One dozen collars at Kashi Co.

RUBBER EXCURSION.

The Likellie has been chartered by the Nahuiku Rubber Company and will take an excursion to the company's plantation on Maui, starting Friday morning, to see the results being achieved in this rubber business. Among those who will go from Honolulu on the excursion will be Messrs. Kotinsky, Q. Q. Bradford and Hughes of the Territorial Bureau of Agriculture and Forestry; Jared Smith, B. F. Dillingham, E. C. Brown, Dr. Rogers, L. A. Thurston, W. W. Hall, Charles Crane, W. W. Thayer, Dr. A. B. Clark, G. P. Cooke, C. H. Cooke, A. W. Van Valkenberg, Dr. Waterhouse, Albert Waterhouse, F. T. P. Waterhouse and William Weirick. Among those expected to join the party at Lahaina are: D. C. Lindsey, T. M. Church, J. L. Cook, Hugh Howell, C. D. Lufkin, R. A. Wadsworth and Senator Haywood.

WARSHIPS ARE PEACE DOVES, SAYS ADMIRAL

COGHILAN CALLS TRANSFER OF FLEET TO PACIFIC MOST STRATEGIC MOVE.

NEW YORK, Oct. 1.—Rear Admiral Joseph B. Coghlan, recently retired, is quoted on the sending of the battleship fleet to the Pacific and in advocating an increased navy. Both these measures, the rear admiral contends, would be moves toward peace.

"The plan to mobilize a great fleet in Pacific waters," the rear admiral is quoted as saying, "is the most strategic move for peace which could possibly have been taken, and shows the necessity for more ships. To duplicate the United States navy would cost far less than to maintain a six months war with Japan or any formidable foreign power."

"An appropriation of \$150,000,000 would build and equip twenty modern battleships and give us the greatest navy in the world—a sea fighting strength that would preclude all possibility of menace to the commerce of the land possessions of the country."

DR. MILES' HEART CURE
Repairs the heart, that pumps the blood, that fills the veins, that convey the fluid, that nourish the organs, that compose the body, that contain the nerves, that supply the power, that animate the man. Keep your heart strong and healthy and it will nourish your whole body. Sold under a guarantee that first bottle will benefit, or your money back.

NAVY YARD MEN EARN \$12.50 DAILY

WAGES OF MECHANICS UNDER THE PIECEWORK SYSTEM LATELY PUT INTO EFFECT.

VALLEJO, Sept. 28.—Despite the fact that the piecework schedule has been strongly opposed by the Vallejo Trades and Labor Council all agitation on the navy yard with regard to it has ceased since it has gone into effect, and it is believed the officials will have no further difficulty in obtaining men to go to work on this plan.

The piecework schedule is now being employed entirely in removing the 380,000 rivets and the bottom plates from the transport Sheridan, and the yard mechanics have never before made such an excellent showing on a job. Over thirty of the bottom plates have been removed in the few days that the ship has been in dock and it is believed she will be released in much less than the one hundred days estimated on, thus leaving the dock ready for other large ships.

Drillers whose per diem pay is \$3.20 are now making \$12.50 each day of nine hours, many of them preferring to work through the noon hour in order to increase their wages. Chip-pers and calkers are also doing far better under the new schedule than before. Many of the men at work on the Sheridan will draw from \$120 to \$130 at the next semi-monthly pay day.

There are now over 2,000 mechanics employed on Mare Island with work on hand for many hundred more. Over

PENNSYLVANIA'S WIRELESS RECORD

AFTER LEAVING HERE SHE TELEGRAPHED A DISTANCE OF 4000 MILES.

SAN FRANCISCO, Sept. 28.—That a new and marvelous record of long-distance transmission by wireless telegraphy was established by the armored cruiser Pennsylvania, is the belief of Captain Aaron Ward and officers of the fleet. When the warship was 1000 miles off the Coast a message was caught, which was identified as being sent from the naval station at Savannah, Ga., to some ship in the Atlantic. The message could not be read, but the sender was identified, and complete confirmation of the remarkable event, which promises to revolutionize wireless telegraphy, is now being sought. It is estimated that the distance between Savannah and the Pennsylvania at the time was 4000 miles. North Head station, at the mouth of the Columbia river, was spoken to 1700 miles away.

The possibility that the Japanese have obtained the secret cipher codes of the Navy is agitating the officers of the cruiser fleet. These codes are of vital importance in naval operations and are carefully kept under lock and key, but it is claimed that discharged Japanese mess attendants, who are suspected of being spies, had access to the cabinets in officers' quarters, where the codes were placed.

\$100,000 was paid to the mechanics at the last pay day, representing two weeks work.

JAPANESE OPPOSITION IS IMPERTINENCE

REAR ADMIRAL SCHLEY SAYS PACIFIC IS AS MUCH OURS AS THE ATLANTIC.

NEW YORK, Oct. 1.—"It would be an impertinence worthy of quick resentment for any power in time of peace to dictate to this country where and when its fleet should maneuver."

This was the succinct comment of Rear Admiral Winfield Scott Schley today when asked about the possible antagonism of Japan to the cruise of the American warships to the Pacific.

When asked about the interview in which Admiral Coghlan declared Japan is preparing for a war and that drastic preparatory measures were imperative, the admiral said:

"I can hardly think that a war is imminent or possible. There is no ground for a war. I don't believe that the Japanese are seeking a war, and I know that this country will not plunge into one needlessly."

"Then," it was asked, "why should the Japanese press object to the cruise of the American fleet to the Pacific?"

"I know of no real demonstration of disapproval," the admiral replied.

"The Pacific is just as much our sea-board as the Atlantic. Ships don't improve by lying at anchor. Long cruises, target practice, drill and utilization of every resource are necessary to maintain high efficiency. I think the cruise will be a good thing."

Fine Job Printing, Star Office.

The Greatest Premium Offer Ever Made

By a Newspaper in Honolulu

Parlor Alarm Clock For Readers of THE STAR

EVERY HOUSE IN HAWAII CAN USE AN Alarm Clock

IT IS A WANT AND A NECESSITY.

Here's a chance to get a New Ornamental Parlor Alarm Clock absolutely free. This is a STAR premium and it beats anything ever put out. Indeed, we've spread ourselves to secure an unusually attractive, durable and Ornamental Parlor Alarm Clock. They sell everywhere for FIVE DOLLARS, but readers of THE STAR can secure one absolutely free.

THIS ILLUSTRATION WILL GIVE THE READER A GOOD IDEA OF THE APPEARANCE OF THE NEW ORNAMENTAL PARLOR ALARM CLOCK, BUT THE ACTUAL SIZE OF THE CLOCK IS MUCH LARGER; IT STANDS ABOUT 18 INCHES HIGH AND IS MASSIVE IN APPEARANCE. IT IS MADE OF EBONIZED BRASS BUFF GUN METAL, OF VERY ORNAMENTAL DESIGN, AND IS FITTED WITH AN EXTRA LOUD BELL ENTIRELY HIDDEN FROM VIEW.

Parlor Alarm Clock

CLOCK STANDS ABOUT TWELVE INCHES HIGH.

Guaranteed by Manufacturer to be a perfect timepiece. The clock can be seen at THE STAR office. It is an attractive piece of furniture and when you see it you will want one to replace that cheap nickel affair which is usually called an Alarm Clock. This clock is made of Gun Metal and the movement is guaranteed to keep absolutely correct time.

How to Obtain a New Ornamental Parlor Alarm Clock
Subscribers to THE STAR, both old and new, who will pay \$8.00 in advance for one year's subscription will receive one New Ornamental Parlor Alarm Clock free of charge

CALL AT THE STAR OFFICE AND SEE THE PARLOR ALARM CLOCK
